## *Statale Vis Arbitration Moot Team*

*Willem C. Vis International Commercial Arbitration Moot – Vienna – 30th Edition (2022-2023)*

### **Introduction**

It is officially open the call for selection for the students who will represent Università degli Studi di Milano at the 30th edition of the *Willem C. Vis International Commercial Arbitration Moot* in Vienna.

### **Description of the Vis Moot competition**

The Willem C. Vis International Commercial Arbitration Moot is the most prestigious legal competition among Universities from all over the world, with the highest number of challenger teams in its final phase (almost 400 ones from as many Universities). The competition consists in simulated arbitration proceedings, where each University team pleads during oral hearings before Arbitral Tribunals composed by the most eminent arbitrators (academics, professionals, judges) worldwide.

The competition starts every year at the beginning of October with the publication, online, of a legal problem. The problem is the same for all the participating teams and concerns an international sales contract governed by the United Nations Convention on Contracts for the International Sale of Goods (CISG), as well as issues of international civil procedure and international commercial arbitration. Participants are requested to draft, within the first week of December, of a written Memorandum for Claimant and, within the end of January, of a written Memorandum for Respondent. Both memoranda shall be written in English. The oral hearings are held in English as well. Each team shall plead both for the Claimant and for the Respondent, before Arbitration Tribunals composed by real arbitrators and internationally-renowned lawyers and professors. The hearings take place in Vienna, during the week before Easter, where converge more than 4000 people (students, coaches, academics, professionals, judges, officers) from all around the world. The week in Vienna, in addition to the oral hearings, offers an exciting program of conferences, seminars, workshops and social events.

In preparation of the final stage in Vienna, each year, in the period February - March, several pre-moots are organized by different Universities and Institutions all around the world, where a limited number of teams meet to train in view of the final stage in Vienna.
